Carries Out Wounded Soldiers

Through Deep Mud.

I was so glad to receive your hawsy and most interesting letter to hand the day before yesterday, and to learn that things were going along satisfactorily.

Since last writing I have been having a lively time, and if it were possible to give you a detailed account of my doings, I am sure it would be very interesting reading. Of course this is impossible owing to certain restrictions we must observe, I may tell you, however, that we spent a very strenuous time on another historic front and I had my first experience of helping to carry out wounded under heavy shell fire. The mud was a little awful at times we would be mired above the knees in the mud and stumbling through pools of water and heaps of wreckage. I often wonder how we kept going. The job lasted nearly twenty four hours, so you may be sure we were a very tired bunch and very glad when the job was over. And this was just one of the incidents.

One seems to get so used to narrow escapes that after a while you seem to lose count of them, and you soon learn the sounds of different kinds of shells and how close they are to you. It is rather extraordinary to watch a bunch of men under shell fire paying little attention to the explosives although they are quite close and shrapnel is flying all around. I have seen them standing in exposed positions looking on with about as much concern as if they were watching a fire-work display. Well I am not yet at the stage of absolute indifference. When one comes close to "duck," and "duck" with alacrity—head first into a shell hole with muddy water in it is necessary.

A "Blighty" may be all right but I would rather get out with a whole skin if possible.

Our strenuous time is over for awhile however and we are enjoying a rest in billets, and I must say we are fairly comfortable. Three other boys and I have a room rented in a private house where we have a real bed to sleep on, and where we obtain the most beautiful spring water from a pump to wash in. This may sound rather funny, but it is being in (concluded on page five)

An Appeal For Funds.

Now that Oyen has a hospital it most essential that in order to keep it open everyone should support it. Although the town people have generously responded to the appeal for donations to help this institution, the Hospital Board are still in need of funds towards the establishment and maintenance. A hospital in Oyen will be a great boon to the farmers in this district and they should assist this worthy institution to the full extent of their power.

Donations of money or in kind will be thankfully received and acknowledged through the Hospital Board. Contributions may be left at the hospital.

Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.

Carries Out Wounded Soldiers

(From page one.)

the habit of washing in shell holes in which frogs, tadpoles, and other fierce denizens of the deep abound, fresh clean water is a great luxury, which we appreciate.

Our worthy landlady is a very decent old soul who thinks the Canadians are just "It." She speaks very little English and we speak very little French, so we have lots of fun. I am teaching her the time in English, ten past one, quarter to two, etc., and she thinks the English way is no end of a joke.

These good times will soon be over though and we'll have to resume the work of giving the Bosche a black eye, and ventilating him with the bayonet, to quote one of our jokers, all kinds of duration prognostications are rife, varying from about Christmas till "God knows when," and if I joined in with any particular bunch, it would be with G. K. W.

I certainly do not hope for an early finish. I am constantly regretting the fact that we are not allowed cameras. With one, it would be possible to keep a wonderful record of my experience, but it is no use weeping and after all, I fancy when one's chief desire will be to blot the memory of it all out of the mind. It is really very gruesome and horrible.

What is the opinion in Canada about the progress made and the effect of the war in the country? And Oh! by the way did you ever subscribe the Eye Opener for me? I would appreciate getting it.

Sincerely,
Chas. L. Dunford.

My Mother's Rosary

Coming Wednesday, Jan. 30

The general theme of the play are very similar to "The Rosary" which appeared in Calgary some time ago, and in which Frank O. Brown played the leading role of "Father Kelly". "Father Kelly" is the same jovial, kind hearted priest who is first of all a human being, and spreads throughout the various scenes his genial and kindly philosophy.

In "My Mother's Rosary" he finds himself confronted with many tangles but his influence being brought to bear, all are solved and tragedy averted. The playing of the little street wail "Lon" was commendable in such a sad. The production will be played at the Oyen Opera on Wednesday, Jan. 30th. Tickets on sale at Crockett Jewellers Store.

A business meeting of the Excel Red Cross Society will be held at the home of Mrs. J. Gainer on Saturday, Feb. 2nd, at 3 o'clock in the afternoon.

ELECTRIC LIGHT

Last Friday night the subscribers electric light had the pleasure of once again seeing their homes and business places illuminated by this light. In order that the people may not be deprived of the the light the Company have gone to considerable expense and inconvenience to have a steam engine installed to run the plant till such time when their new engine will arrive, and should the light be a little uncertain the blame should not be laid on the Company since they are working under difficulties.

As we have already stated in other issues of the News, that the electric light is not a money making proposition, and in order that the Company may cut down all unnecessary expense they have made arrangements with the Bank of Toronto for the subscribers to pay their electric light account at this Bank. All accounts must be paid within the first five days of each month otherwise a five per cent penalty will be added.

In order that subscribers may be warned of the lights going out they have arranged to give one flash five minutes previous to the lights going out for good, and two flashes for a short stop.
